

Day - 01

AI Engineer Internship - PORTOFOLIO

Hari : Jumat, 05 Agustus 2026

Project : *Alergio!* - Deteksi Alergi Bahan Makanan

Data Engineer - HomeCredit Group

Default Risk HomeCredit Group

Description

Project Default Risk dari HomeCredit Group dirancang untuk mendemonstrasikan kapabilitas Data Engineering dengan kombinasi AI Agents. Arsitektur mengimplementasikan Medallion (Bronze, Silver, dan Gold) untuk memproses dataset “Home Credit Default Risk” dan mengintegrasikan Autonomous AI Agent (CrewAI) untuk operasional Data Ops yang otomatis.

Problem

Home Credit strives to broaden financial inclusion for the unbanked population by providing a positive and safe borrowing experience. In order to make sure this underserved population has a positive loan experience, Home Credit makes use of a variety of alternative data—including telco and transactional information—to predict their clients' repayment abilities.

While Home Credit is currently using various statistical and machine learning methods to make these predictions, they're challenging Kagglers to help them unlock the full potential of their data. Doing so will ensure that clients capable of repayment are not rejected and that loans are given with a principal, maturity, and repayment calendar that will empower their clients to be successful.

Tools & Integration Architecture

Tools	Function
Linux & Docker	Infrastruktur Containerization
Apache Airflow	Orchestration
Apache Spark	ETL
Hadoop HDFS	Data Lake
Apache Hive	Penyimpanan Data Warehouse
Great Expectation	Validation
OpenSearch	Observabilitas
CrewAI	Otomatisasi SDLC
